Police Feedback

Report by Police Authority March 2012 concluded that *‘there is no discernible evidence that crime has increased by the strategy to reduce street lighting between midnight and 6am’*

“Since the start of the county council’s rollout (of part night lighting) there has been no increase in incidents or any change in crime patterns that might relate to street lights being switched out between midnight and 6am”

Chief Constable Andy Bliss (Hertfordshire)

Road Accidents

- Sites where lighting solution implemented for accident reduction
- Limited information
- Findings from other Authorities

Cultural Change

- Festivities
- Link to Out of Hours Calls
- Day Burning Lights

Future of Lighting In Suffolk

- Highway Magazine Excellence Award
- LED Rollout
- Dimming
